## Salazar Case is in Hands of the Jury

Court Expedites Matters by Forcing Attorneys to Confine Themselves Strictly to the Contested Point.

(By Evening Herald Special Wire) Santa Fe, N. M., Dec. 8.—The case of General Jose Ynes Salazar, charged with perjury in making alleged false statements in a habeas corpus proceeding, went to the jury in the federal court at 12:15 today after forty-five minutes had been offered each side for argument and the court had instructed the jury, addressing it for twenty minutes. The court expedited the trial yesterday afternoon and today by forcing attorneys to confine themselves to the question as to whether or not Salazar, as his sworn testimony states, crossed into the United States before the perjury of Gilmore and Gilmore's secretary had been ascertained by the federal army.

of Gen. Jose Ynes Salazar on a charge of perjury, in the United States court here, was the statement from the witness stand by the general himself that all he had testified at the habeas corpus hearing last year was true. It is upon this testimony that the perjury charge is based. Salazar contends that he resigned before the arrival in this country of the refugees from the battle of Ojinaga, the government holds that he came into this country with them. Just before Salazar was called to the stand Col. Evaristo Perez, a witness for the defense, testified that he and Col. Rodrigo Quezada had been assigned to the command formerly held by General Salazar, after Salazar's resignation had been accepted. A feature of the testimony of General Quezada, formerly chief of the federal army in the north of Mexico, was his declaration that he had not been allowed to come up from Fort Wingate to Santa Fe in September, 1914, to tell what he knew about General Salazar's departure from Mexico. He said he was suddenly informed by an army officer that he need not come.
